Using a working set limited to 600 pages and 86 pages of data storage (excluding image)

Total number object records read (both passes):   14
    of which 0 were in libraries and 0 were DEBUG data records containing 0 bytes

Number of modules extracted explicitly             = 0
    with 0 extracted to resolve undefined symbols

0 library searches were for symbols not in the library searched

A total of 5 global symbol table records was written
