  Version:        'V04-000'

      V03-003 DAS0002          David Solomon          27-Jan-1984
              Remove type declarations for /TYPE and /PROCESS (as they
              are not used). Add disallow clauses to make /BINARY, /BRIEF,
              /FULL, and /SUMMARY mutually exclusive. Don't allow /SORT with
              /SUMMARY. Require /SUMMARY with /REPORT.

      V03-002 DAS0001          David Solomon          25-May-1983
              Remove TYPE=xxx from /TYPE, /PROCESS, and /SORT qualifiers,
              because the syntax that ACC accepted in V3 is not accepted
              by DCL in V4, given the existing keyword TYPE definitions.

      V03-001 PCA1008          Paul C. Anagnostopoulos 25-Mar-1983
              Fix the VALUE clauses so that there are commas between
              the subclauses.  The new CLD requires them.

define  type       ACNT_REPORT_KEYWORDS
        keyword            BUFFERED_IO
        keyword            DIRECT_IO
