Using a working set limited to 1350 pages and 110 pages of data storage (excluding image)

Total number object records read (both passes): 1185
of which 579 were in libraries and 142 were DEBUG data records containing 12285 bytes

Number of modules extracted explicitly = 2
with 16 extracted to resolve undefined symbols

70 library searches were for symbols not in the library searched

A total of 7 global symbol table records was written
