Using a working set limited to 1050 pages and 79 pages of data storage (excluding image)

Total number object records read (both passes): 574

of which 229 were in libraries and 18 were DEBUG data records containing 716 bytes

Number of modules extracted explicitly = 9

with 1 extracted to resolve undefined symbols

5 library searches were for symbols not in the library searched

A total of 0 global symbol table records was written
